Facilities Master Planning
Technology Planning
Schematic Design**

Relevant Facts

- Bradt Primary School with 630 grades K-2 students.
- Pinewood Elementary School with 700 grade 3-5 students.
- Draper Middle School with 830 grade 6-8 students.
- Mohonasen High School with 1,120 grade 9-12 students.

Educational Systems Planning is currently providing educational programming services and assisting in the development of the district's Facilities Master Plan. ESP has:

- Reviewed curriculum guides, strategic plans, past facilities plans, the technology plan, and other documents
- Met with individual stakeholders and larger groups through interactive "charrettes" to obtain staff input to the formation of the educational program

The Educational Program Document will include:

- The district's vision and mission statement
- Documentation of current teaching and learning trends and their impact on school design and learning space layout
- Documentation of community involvement and use
- Definition of the District's desired educational perimeters such as grade organization, school size, and class size
- Consideration of full day Kindergarten
- Consideration of Pre-Kindergarten
- Consideration of an Early Childhood Center
- Definition of curriculum initiatives and desired educational program direction
- Identification of critical issues and challenges facing the District
- A statement of technology integration into the educational program including a vision technology utilization
- Program space utilization within each school

ESP will also assist the Architect develop and evaluate multiple alternative solutions to meeting the space needs and desired educational program for the schematic design phase of the Facilities Master Plan.
